

Cerebral Cortex

Hippocampus

Brainstem

Cerebellum

# Brian Stem

**B**rian Stem works hard in the Brain Stem.  
The Brain Stem helps Phoebe with things she doesn't think about, like breathing, swallowing, blinking, and her heartbeat.

# Ms. Hippo

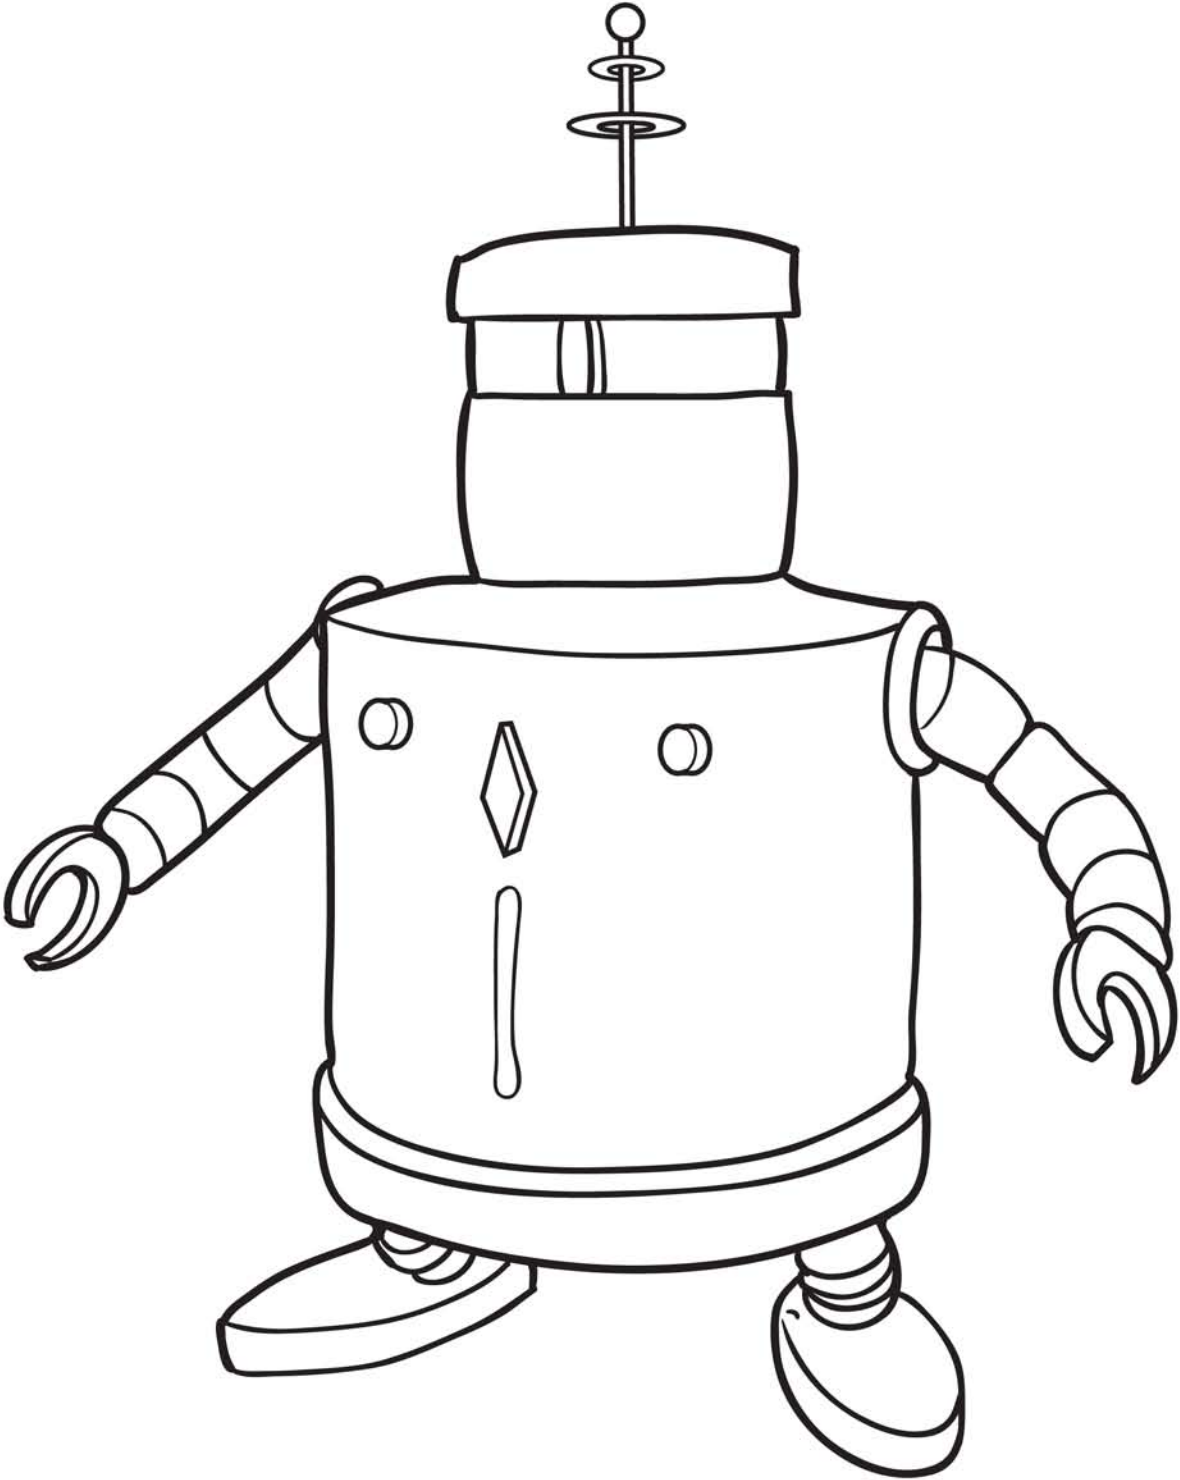

**M**s. Hippo lives in the Hippocampus, deep inside the brain. The Hippocampus is the part of your brain that helps you remember things like what you learn in school or where you put your shoes.

# Nigel Cortex

**Nigel Cortex** is Sir Rebral's creative brother in the Cerebral Cortex. He likes to make music, draw pictures, and imagine stories.

# Otto Matic

Otto Matic is a robot who helps out Brian Stem in the Brain Stem.

# Phoebe Brainheart

Phoebe Brainheart is a girl who loves to know everything she can about the brain -- human brains, animal brains, all kinds of brains!

# Sara Bellum

**S**ara Bellum is a dancer who also loves to ride her brainboard in the Cerebellum, which is the part of the brain responsible for balance and coordination.

# Sir Rebral Cortex

**S**ir Rebral Cortex is in charge of the Cerebral Cortex, the part of your brain that helps you think, decide, plan, walk, talk, and a lot more.
